

Printing Specific Pages in Adobe Reader

If you would like to print specific pages of your newsletter, please follow the directions below:

Click on File on the Menu Bar. A drop down menu will appear, click on Print. A Print dialog box will pop up. Under Print Range select Pages and enter the pages you wish to print. The example below I entered 1-3,6-10 so it print pages 1-3 and pages 6-10. If you only want one specific page to print, enter the page number for that page.
